

# MaxDaddy CBD Oil Drops Directions for Use

- Store bottle in a cool, dry place away from direct sunlight.
- Shake bottle well before use.
- Fill dropper up to marked dosage lines on the dropper from the tables below for small, medium or large dogs.
- For best absorption, gently squirt in your dog's mouth or squirt into your hand and let your dog lick the oil from your hand. You can also squirt onto a dog treat or mix with your dog's food. **DO NOT** put the glass dropper into your dog's mouth.

## Suggested Dosage for Small Dogs Up to 20 lbs

### 100mg CBD per Bottle

- One full dropper contains 3.33mg CBD.
- Dosing guidelines go by the weight of your dog from a regular dose (low end of the dosage range) up to a stronger dose (high end of the dosage range) in the table below.
- If you do not see results from a regular dose, apply a stronger dose within the range in the table.
- Administer twice daily.

Weight	Dosage
<11 lbs	.25 ml–.75 ml
11–20 lbs	.50 ml–1.0 ml

---

## Suggested Dosage for Medium Dogs 21 to 50 lbs
